EDUCATION

M.S. in Cybersecurity Engineering
Auburn University | Auburn, AL | May 2028

B.S. in Computer Science, Summa Cum Laude | GPA: 3.9/4.0
The University of Oklahoma | Norman, OK | May 2026

Relevant Coursework: Computer Security, Cryptography, Operating Systems, Algorithm Analysis, Compiler Construction

PROJECTS

Windows Security Monitoring Lab with Splunk
Jun 2026 - Present

- Built a Windows security monitoring lab using Splunk Enterprise, Sysmon, Splunk Universal Forwarder, Kali Linux, VMware, and Windows 11 to collect and analyze endpoint security logs.
- Configured Windows Security Event Log and Sysmon forwarding into Splunk, validating end-to-end log ingestion and troubleshooting telemetry collection issues.
- Investigated simulated security events by correlating Windows Security and Sysmon logs to analyze authentication failures, process creation, and network connections and reconstruct attacker behavior.
- Documented investigations and mapped observed behaviors to MITRE ATT&CK techniques, including T1110 (Brute Force) and T1105 (Ingress Tool Transfer).

LLM-Based Semantic Binary Similarity Analysis
Dec 2025 - May 2026

- Built a binary analysis pipeline using Binary Ninja HLIL to assess LLM-based semantic similarity across Intel and ARM compiled C++ binaries.
 - Developed Python tools for binary comparison, similarity matrix generation, and deterministic scoring using OpenAI-compatible APIs and models including gpt-oss:20b, gpt-oss:120b, and llama3.3:70b.
 - Analyzed LLM behavior for nondeterminism, parsing failures, and context limitations across repeated binary comparison experiments.
 - Evaluated binary similarity scoring reliability for cybersecurity-oriented binary analysis, focusing on false-positive reduction across architectures.
-

LEADERSHIP & INVOLVEMENT

Member
Tau Beta Pi | Mar 2025 - Present

Southwest District Vice President for Programs
Kappa Kappa Psi | Apr 2023 - Mar 2026

- Coordinated programming and organizational initiatives for chapters across five states serving 300+ student members.

Squad Leader
The Pride of Oklahoma | Jun 2024 - Jan 2026

- Mentored and trained an 18-member section within a 350-member organization while collaborating with student leadership teams.
-

SKILLS

Languages:
Python, PowerShell, Bash, SQL, Java, C++, C, C#

Tools & Platforms:
Splunk, Sysmon, Binary Ninja, Docker, Git, Linux
